AZURE DEV OPS – Workshop*

Is your organization on DevOps yet?

Kloudynet

*Workshop for 10-25 attendees (Remote)

Why Azure DevOps?

- **Shorter Development Lifecycles, Faster Innovation:** No more silos for development & operations teams. Which means shorter operation cycle times, and shorter time to market

- **Reduced Costs, Improved Efficiencies:** DevOps tasks can be automated. For eg. Continuous Integration Servers automate the process of testing code, freeing up developer bandwidth. Automation also helps reduce human error

- **Collaborate, Communicate & Manage Changes** for a stronger and smoother implementation of the Agile process

Azure DevOps – Workshop (1 Day)

- Managing software development projects with Azure DevOps and Agile - Agile planning and portfolio management with azure boards, Managing project schedules across teams with delivery plans
- Source code management, Version controlling with azure repos, Working with pull requests in VS Code, Visual Studio and DevOps
- Embracing CI & CD – Enabling continuous integration & deployment with Azure Pipelines, Package Management, Configuring Pipelines as Code

1: FUNDAMENTALS

Consultant will kick off the engagement, conduct key Azure DevOps capability workshop, and perform lab preparation

2: HANDS ON LABS

- 3-4 lab activities using Azure Boards, Pipelines, Repos, Artifacts

WHY KLOUDYNET?

When it comes to application modernization on the Cloud, you need an experienced partner.

kloudynet Technologies is a Microsoft Silver Partner. We have certified Azure DevOps consultants working with customers in the region with their end-to-end DevOps journeys. Our developers have years of experience in software development, workshop delivery and also have deep expertise in DevOps and Agile

We are proud to have partnered with companies such as PETRONAS, AXIATA, Maybank, Jurong Port, MISC and CELCOM on various App Modernization Projects, and are always striving to deliver cutting edge solutions at great value.
